which you can use to change the world.”**

**- Nelson Mandela**

# We do it differently.

LIAT has been a serious presence in the industry since 2009, and from the beginning we've maintained our drive to improve. We believe in preparing our customers for what's next and that means listening. Call us, and a person will answer the phone. We want to know what you're passionate about and how we can help. And with LIAT, you'll get more than you expect. Our products rival the quality of the big names, but our nimble team is obsessed with your satisfaction and will go above and beyond to ensure it. You are not a client, *you are our personal passion.*

# The files you need, when you need them.

...or call us and we'll answer, and we'll help you out.

# Lead with LIAT

LIAT features high-end design and top of the line quality at a mid-level price point, with readily available CAD and Revit files to download straight from our website and the ability to keep the purchasing process streamlined and straight forward with multiple national and state contract options. By keeping our manufacturing in-house, we are able to offer a higher quality product, overseeing every step of the process. This translates into more affordable prices, incredible consistency and a shorter lead time to deliver your vision.

# Lean on LIAT

The LIAT team is filled with passionate people, each bringing an incredible amount of expertise to keep us ahead of the curve. Working with LIAT means you'll get to know us and see firsthand how we immerse ourselves in creating our products and cultivating trust and relationships with our customers. With a focus on customer service, our team is standing by to assist you in quick quote turnarounds, space planning, product renderings and more. At the end of the day, we're here to make your life easier.

# Love your LIAT

Public spaces are used for a growing range of needs. Waiting, collaborating, learning, meeting and lots of other -ings mean adaptability and longevity are at the forefront. Every option and style is ergonomically crafted with the best materials available, which means your investment will last a long time. We put our hearts into our products and stand behind their outstanding craftsmanship, which is why we offer an industry-leading 20-year warranty.
